

Santa Lucia Preserve Native Grassland Seed Blends

April 2018

The health and integrity of our ecosystems is one of our highest priorities. To provide a simple solution for restoration and landscaping projects, while protecting our beloved land, we designed two seed blend options. Our blends contain only native seeds -grasses and flowering plants- that naturally occur within The Preserve. To ensure a local, safe source of seeds, we have collaborated with Pacific Coast Seeds to make these blends available with the most proximate seed suppliers. Composition of the blends may be adjusted based on availability of each species, which can vary by year.

Premium Grassland Blend

Price: \$66/lb. lb x Acre: 36

Species	Common name
25% Danthonia californica	Califronia Oatgrass
40% Stipa pulchra	Purple Needlegrass
5% Stipa lepida	Foothill Needlegrass
10% Melica californica	California Oniongrass
20% Wildflower Blend*	

Wildflower Blend*

Species	Common name
20% Achillea millefolium	White Yarrow
20% Trifolium ciliolatum	Foothill Clover
20% Clarkia purpurea	Purple Clarkia
20% Eschscholzia californica	California Poppy
20% Sisyrinchium bellum	Blue eyed grass

The Wildflower Blend is optional and designed to complement our Premium Grassland Blend. It is not intended to be used as a stand-alone blend. Composition may be adjusted based on availability from the supplier.

Construction Site Blend

Price: \$52/lb lb x Acre: 30

Species	Common name
20% Danthonia californica	Califronia Oatgrass
65% Stipa pulchra	Purple Needlegrass
15% Melica californica	California Oniongrass

For best results, disperse seeds after the first rains of the season in mid to late fall.

These native grassland seed blends are pre-approved for use in your Homeland and *may* be suitable for use in your Openlands. Please consult the Conservancy for Openlands use.
